

John Crozier was down from Truxton this week.

William O'Day was in from the Oro Plata mine this week.

W. H. Rogers is in San Francisco, where he will visit for some time.

J. R. West and wife returned from San Francisco the first of the week.

Elmer Ziegler, who has been working at the Gold Road camp, is in Kingman.

Fred Morrison and Anson H. Smith were called to the Needles yesterday on business.

Charles Goodchild came up from the Gold Road country this week to look after lead matters.

Sumner Beecher will leave tomorrow for Pasadena, California, where he will enter school this winter.

Fred Stull is looking after mining interests at the Roosevelt mines, in the Boundary Cone country.

Mrs. H. E. Flood and children left Thursday for the Needles, where they will reside in the future.

Mrs. Kean St. Charles and children came in Wednesday from California where they have been for some time.

Quite a number of young folks of Kingman attended a card party at the Maguire ranch last Tuesday evening.

Mrs. M. E. Cohenour was down from Peach Springs yesterday. She was being appointed Indian agent at that place.

H. J. West returned from Pasadena Thursday last where he attended the funeral of the late Miss Jane Munro. Miss Maggie Mackenzie, his ward, accompanied him.

A. J. Doran and O. D. M. addis represented Mohave county in the late territorial convention of the republican party. They are both able men and a credit to the republicans of Mohave county.

A special train was run out to Chloride last evening for the purpose of taking the democrats to the ratification meeting at that place. Quite a number of the people of the town went out and returned after the speaking.

Never in years has the Wallapai valley received such a flooding as that of last week. The whole country was afloat and now that the water has gone into the ground the grass is coming up fresh and green.

We understand that the old Senator will start up on a trial run Tuesday last and that so far everything is running smoothly. The company is financially able to carry out all its contracts and we hope they will make a success.

That mining in this section of the territory is looking up is evidenced by the great amount of assaying done in the local offices. Hundreds of assays are coming in now where but a dozen or so were heretofore received.

On the 25th of this month the cattle-men of the east end of the county will begin the annual fall roundup. They will make one of the most thorough roundups of years past and will be out on the ranges for more than a month.

John Boyle, general manager of the Lenora Mining company, departed for St. Louis last Monday. He will probably return to the mines in a month or so. The company directors are to have a conference to agree upon some method of working the property.

Frank Hunt returned yesterday from Los Angeles, where he has been nursing an injured foot. While working at the Gold Road mine a month ago he let a large rock fall on his foot, badly maiming that member. He is now able to get around without the aid of a cane.

H. P. Ewing was over in the Gold Road country this week and reports that everything looks prosperous. He is assured that the railroad to that camp is sure to be built and that when it is completed the mining companies operating in that section will build their reduction works on the other side of the river.

Despite the fact that other newspapers claim to be closer in touch with the mines and mine management of the Chloride district, the MINER was the first paper in the field to report the possibility of the starting up of the Schuykill and Elkhart mines, and some week prior to the appearance of any item concerning the fact. The MINER gives the news when it is news.

Hon. John C. Herndon accompanied Col. Wilson on his visit to Kingman and last evening went over to Chloride to take part in the campaigning at that point. John C. Herndon is a gentleman of the old school and does not believe in campaign fabrications. In the little talk to the people of Kingman after the conclusion of Wilson's speech he smoothed out the misstatements made by the Col. He believed that capital and labor should work together in harmony, and that in the near future he believed that arbitration would be the method of settling all disputes arising from differences between capital on one side and labor on the other. He also thought that the government was in the hands of the people and there was no immediate cause for alarm over "militarism," as the Col. would have it. It, to him, was a cause of who was best fitted for the office of delegate, Col. Wilson or Bob Morrison. This in a nutshell was what Mr. Herndon said. It was the truth and admits of no contradiction.

A letter received by Jack Maddux from J. S. Kolar conveys the sad intelligence that on the day he left Kingman his good old mother died at the old home in Iowa. He arrived in time for the funeral, but his home coming was a sad one. He had not seen his mother in twenty-two years, and to look upon her face then cold in death was a truly sad blow to him. His many friends in Kingman extend to him their kindly sympathy in his bereavement.

Last Sunday Kingman baseball boys played a game of ball at the grounds of the Needles baseball club and returned home badly vanquished. Neither club put up a good brand of ball, but the Needles did less of the bad work than the Kingmanites and won by a score of 13 to 7. A return game will probably be played on the Kingman grounds on Sunday, October 5, at which time the Kingman Gun Club will entertain several visiting clubs and take part in a shoot over the traps.

The Needles Hotel under the management of Mr. and Mrs. Richard Taggart is one of the neatest and best kept hostleries on the line of the Santa Fe Pacific railroad. The dining rooms afford the best of everything and the kitchen is presided over by one of the best chefs on the coast. Your stay in Needles will be made pleasant if you but become the guest of this hotel.

After the speaking Thursday night the young men of Kingman gave a dance in honor of Miss Florence Mensch, who departed the next morning for Kansas City and St. Joe, Mo., where she will visit relatives for a month or six weeks. The dance was well attended and all report a good time.

Miss Laura Thompson, of Crockett, California, daughter of Grant Thompson, is visiting with Mrs. and Mr. E. F. Thompson, in Kingman. Miss Thompson is a handsome and accomplished young lady and is sure to become quite popular among the young people of the town.

Mrs. Mary E. Teats, of Los Angeles, representing the women's Christian Temperance Union, will lecture in the M. E. church, Kingman, Saturday and Sunday, September 27 and 28.

The following letters remain dead in the Kingman office: James Chapman, Chas. Harris, Jesus Garcia.

WANTED:—Bids for 100 feet of Tunnel work 4 by 6 feet on Portales de Oro Mining Company's property, 23 miles west of Kingman. Specifications at 111 East 2nd Street, Los Angeles, Cal. All bids must be lodged with the Secretary of the Company on or before Sept. 30th, 1902. The Board of Directors reserve the right to reject any or all bids.

GEO. H. PARKER,

Secretary.

A Remarkable Record.

Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many million bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by H. H. Watkins.

Peter Benson, who has had charge of the Gold Basin mill for some time past, was in Kingman a few days this week.

William Sweeney, who has been on a prospecting trip the past two months to the south part of the county, returned home a few days ago. He found nothing that suited him in his search through the mountains.

All the mines in the southern part of the county show a revival of interest and this winter promises to see more men at work in the copper belt than ever before. The Planet mines are now being worked by a force of men, which force will be augmented greatly this winter.

Jack Little has a group of mines in the vicinity of Cerbat that ought to become paying properties. On the outcrop the veins carried pay ore and at a depth of twenty or thirty feet the ore body had increased in richness and width to an appreciable extent. The mines are easy of access and can be had on easy terms.

Charles Gracey and wife passed through Kingman Wednesday last on their way to Eldorado Canyon, where Mr. Gracey will have charge of the mill and mines of the Southwestern mining and milling company. It is said that an interest in this property has passed to capitalists who are desirous of operating the mines on a large scale. The new and old owners of the property are expected to pass through Kingman on their way to the mines sometime within the next ten days. The mines are among the best in southern Nevada and we hope they will be opened up and put in shape to pay dividends.

In the selection of Robert E. Morrison as their candidate for delegate to congress the republicans of Arizona made no mistake. Bob Morrison is able, clean and conscientious, a hustler and a man of the people. In Yavapai county he will poll far more than the full strength of the party and in the other parts of the territory he is sure to run away ahead of his ticket. Two years ago Mark Smith carried the territory by but nine hundred majority, and as every one knows, Mark Smith is one of the best campaigners in the west. Wilson, weighed down by his action of two years ago, will find that he has an uphill fight to make in his own party, while Morrison is running easily before the breeze with full party strength behind him.

Another Exposition Palace.

Bids will be opened tomorrow at St. Louis for the construction of the Palace of Mines and Metallurgy for the World's Fair. This will stand near the Liberal Arts and Government building in the southern part of the main group of exhibit palaces. Its dimensions are 525 by 750 feet, covering over nine acres. The estimated cost is \$500,000. The contractor will be required to have it completed August 31, 1903. The design, by Theodore C. Link, is a radical departure from the general style of Exposition architecture. Two obelisks 150 feet high will stand at each of the four principal entrances. Behind the obelisks are globes nearly as high above ground, each surrounded by giant sculptures of human figures. The roof will project 18 feet beyond the wall line and a broad loggia will extend around the building.

Independent Democratic Candidate for Supervisor.

FELLOW CITIZENS: I am thoroughly satisfied from all the evidence that I was honestly nominated for the office of Supervisor by the legal voters of the democratic party of Mohave county at the late democratic primaries, and that I am deprived of such nomination by fraudulent and dishonest method.

I therefore make this announcement and call upon the voters of all political parties who desire to see fair play and an honest ballot, to give me your honest and earnest support at the November election.

Yours respectfully,
A. CORNWALL.

For Constable.

I hereby announce myself as an independent candidate for constable for Kingman precinct at the ensuing election.

JOSEPH BROWN.
Kingman, September 4, 1902.

Our "Diamond M" flour is the best in the land. If you have not tried it give it a trial now and you will use no other. Better than the best and gives everyone perfect satisfaction.

GADDIS & PERRY COMPANY.

Notice to Contractors.

The Swiss American Mining Co. will let assessment contracts on eight or more claims to the party who will for 100% on each claim do the most work. Claims located near the Leland Mining Co. and the German-American Mining Co., San Francisco District, Mohave Co. Arizona.

C. J. GREENE
Needles, Cal.

Watermelons, sweet corn, peas, tomatoes, cucumbers, radishes, onions, lettuce, squash, berries, oranges, lemons and other good things at Lovin & Withers.

Articles of Incorporation OF THE C. O. D. Consolidated Mines Company.

Know All Men By These Presents: That We, Daniel Stone, Henry S. Mackay, Charles A. Tait and Thomas Campbell, citizens of the United States of America, have this day voluntarily associated ourselves together for the purpose of forming a corporation under the laws of the Territory of Arizona, and do adopt the following Articles of Incorporation, and do hereby certify and declare:

I. That the names of the incorporators of this company are, Daniel Stone, H. S. Mackay, Charles A. Tait and Thomas Campbell.
That the name of the said corporation is, THE C. O. D. CONSOLIDATED MINES COMPANY.

That the principal place of transacting the business of the said corporation is and shall be Kingman, in the county of Mohave, in the Territory of Arizona, with branch offices at such place or places in the United States of America or elsewhere, as the board of directors of said company may from time to time designate.

II. That the general nature of the business proposed to be transacted by the said corporation is:

To carry on a general mining business, and to buy, sell, lease, bond, develop, operate, or otherwise deal in mines, mining claims, and mineral lands, and any and all interest therein of whatsoever character; and

To buy, sell, lease, bond, construct, maintain and operate ditches, flumes, wells, reservoirs, pipe lines and other equipments necessary or incidental to the development or transportation of water or other fluids for mining, milling and other purposes.

To obtain by purchase, or otherwise, mills, machinery, mill sites and mill buildings, and to erect thereon all necessary buildings, shops, mills, smelters, concentrators, crushers, and any and every and all apparatus used in the reduction of ores bearing gold and other metals;

To buy, sell, lease, bond, construct, maintain and operate railroads, wagon-roads, tramways, or other agencies suitable for the transportation of ore or other materials to and from the mines or principal works or place of business of said company to some navigable stream, railroad, turnpike or public way;

To own, handle and control letters patent and inventions relating to, and incidental to the mining, milling, smelting and reduction of ores;

To carry on and conduct a general mercantile business;

To borrow money and to issue bonds and other evidences of indebtedness, and to mortgage, pledge, sell, and otherwise dispose of any or all property of whatsoever nature, belonging to said company;

To acquire both real and personal and all property which may be necessary or incidental to carrying into force and effect the objects

and purposes for which the said corporation is created; and

To mortgage, pledge, hypothecate, sell, and otherwise dispose of any part or all of said property; and

To buy, sell, exchange, own, pledge, hypothecate, and otherwise deal in mining stocks and securities, or other stocks and securities in such manner and extent as shall not be in conflict with the laws of the United States, or of the Territory of Arizona;

To locate, run and operate tunnels and tunnel sites upon government and other lands; and to locate, record and patent any and all lode or placer mining claims, tunnels and tunnel sites; and

To do and perform any and all and every the acts necessary or incidental to the carrying on the business hereinafore specified.

III. That the amount of the capital stock of the said corporation shall be TWO MILLION OF DOLLARS (\$2,000,000) divided into TWO MILLION (2,000,000) shares of the par value of ONE DOLLAR (\$1.00) per share, and the said two million shares of said capital stock to be also divided into five hundred thousand (500,000) shares of preferred stock, and one million five hundred thousand (1,500,000) shares of common stock; the said five hundred thousand shares of preferred stock are preferred as to the assets of said corporation to the amount of Five Hundred Thousand (\$500,000) Dollars, so that in the event of the dissolution of said corporation, or sale of its assets for the purpose of distributing the proceeds among the stockholders, the holders of said preferred stock shall receive the proceeds of the corporate assets up to said amount of five hundred thousand dollars, and the excess, if any, shall be divided among the holders of said common stock.

The holders of said preferred stock shall also be preferred as to the dividends to be declared by this corporation, as follows: No dividends shall be declared or paid on common stock until dividends have been first paid on preferred stock at the rate of eight (8) per cent per annum, on the par value of said preferred stock; after dividends on preferred stock at the rate of eight (8) per cent per annum, have been declared and paid, dividends upon the common stock may be declared and paid out of the surplus earnings of said corporation, if any.

IV. That the corporate existence of said company shall commence on the day and date of the filing of these articles of incorporation for record in the office of the County Recorder of Mohave County, Territory of Arizona, and a certified copy thereof with the secretary of the said territory, and shall endure for twenty five (25) years thereafter.

V. That the highest amount of indebtedness or liability, direct or contingent, which this corporation is at any time subject, shall not, in any case, exceed One Million Three Hundred and Thirty-three thousand, three hundred and thirty-three dollars and thirty-three cents.

VI. That the stockholders of said corporation shall not be individually liable for the debts of the said corporation, and that all the private property of the stockholders shall be exempt from liability for any or all of the debts of this corporation.

In Witness Whereof, We have hereunto set our hands and seals this 1st day of August, A. D. 1902.

DANIEL STONE, [Seal]
HENRY S. MACKAY, [Seal]
CHARLES A. TAIT, [Seal]
THOMAS CAMPBELL, [Seal]

STATE OF CALIFORNIA, [Seal]
County of Los Angeles, [Seal]

Before me, J. C. Oliver, a Notary Public in and for the County of Los Angeles, State of California, on this day personally appeared Daniel Stone, Henry S. Mackay, Charles A. Tait and Thomas Campbell, known to me to be the persons whose names are subscribed to the foregoing instrument, and acknowledged to me that they executed the same for the purposes and considerations therein expressed.

Given under my hand and seal of office this 1st day of August, A. D. 1902.

My commission expires on the 25th day of March, 1903.

J. C. OLIVER, [Seal]
Notary Public in and for Los Angeles County, State of California.

TERRITORY OF ARIZONA, [Seal]
County of Mohave, [Seal]

I, Jno. P. Feeny, Recorder of Mohave County, Territory of Arizona, do hereby certify that I have compared the foregoing copy of Articles of Incorporation of the C. O. D. Consolidated Mines Company, and of the endorsement thereupon with the original records of the same on file in this office, and that the same are correct transcripts thereof and of the whole of said original records.

Witness my hand and the seal of said office this 4th day of August, 1902.

JNO. P. FEENY, [Seal]
Recorder of Mohave County.

First insertion August 8, 1902.
